PLAYED / USER FLOW

01 / Open the app and sign in

Goal: Get from launch to the Feed / Home screen.

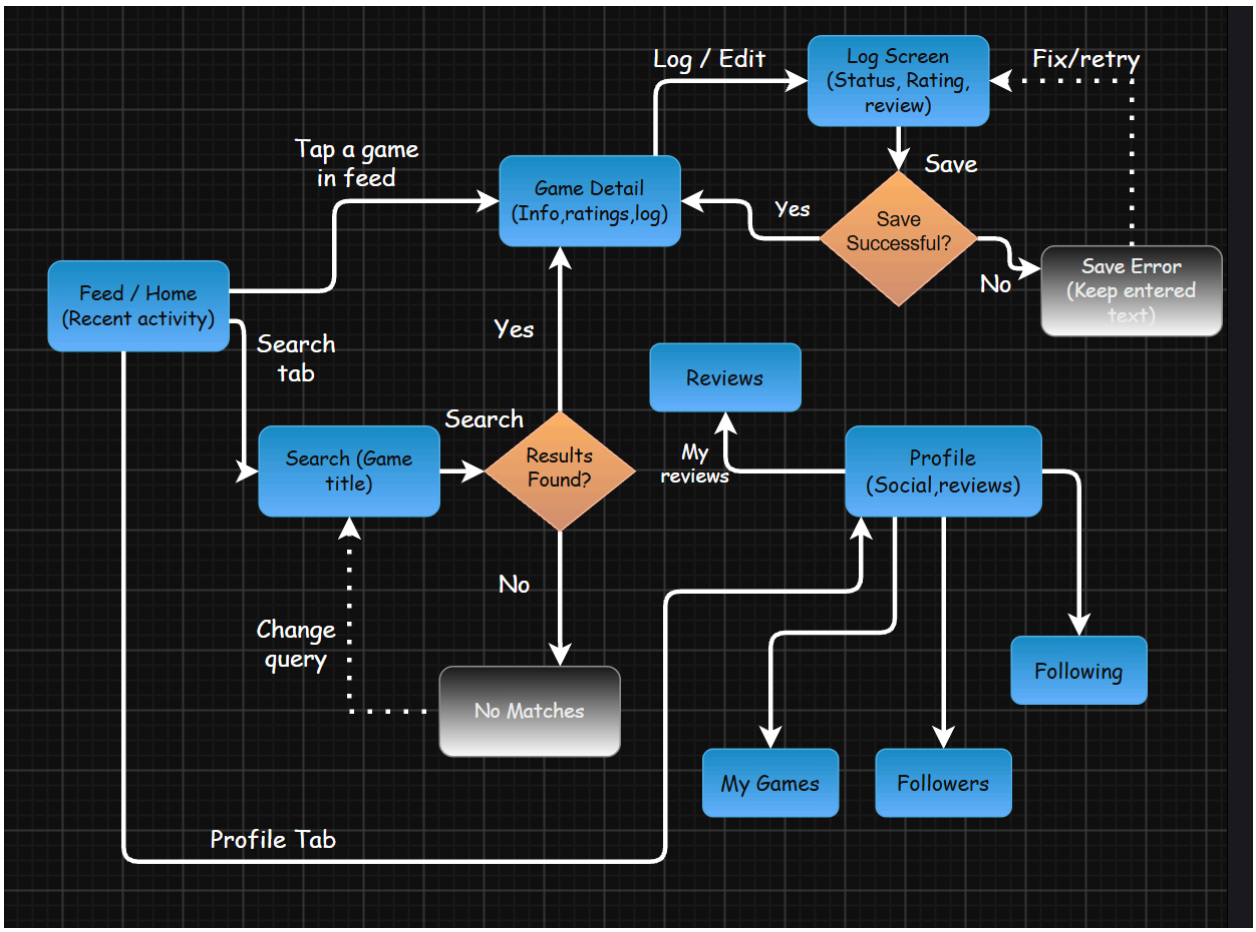

On a successful sign-up, the user is signed in automatically. Invalid details stay on the same form (Blue = Figma screen, Diamond = decision, Gray = state / error).

PLAYED / USER FLOW

02 / Finding games, reviews and people

Goal: Find and log games, browse reviews, then see recent games and social lists on your profile

Log fields: status (Playing / Completed / Want to Play / Dropped), optional rating, optional short review). (Blue = Figma screen, Diamond = decision, Gray = state / error).

Bottom Navigation: Home, Search, and Profile are accessible from any main tab using the bottom navigation bar. Users can switch between these screens directly without returning to Home.
